Regarding the Assignment of Academic Supervisor (Laboratory) After Enrollment

Dear Prospective Students who have applied for pre-admission support through the university's PSD (Pre-admission Support Desk):

This message is addressed to those who are scheduled to enroll in the Graduate School of Information Science and Electrical Engineering at Kyushu University from April 2026.

As it is explicitly stated in the admission guidelines, “the preliminary screening conducted through the PSD does not determine the laboratory (academic supervisor) to which a student will be assigned after enrollment.” Therefore, we would like to reiterate that you are not guaranteed to be assigned, to the laboratory of the faculty member you indicated as your preferred supervisor at the time of your PSD application, after enrollment.

For reference:

https://www.isee.kyushu-u.ac.jp/wp/wp-content/uploads/2026mc_general_guidelines.pdf

The assignment of academic supervisors (laboratory placement) will be determined after enrollment in accordance with the rules of each department as follows.

- Department of Information Science and Technology: laboratory preference survey will be conducted after enrollment.
- Department of Electrical and Electronic Engineering: laboratory assignments will be determined based on the preference survey submitted at the time of the entrance examination.

Sincerely,

Professor YOKOO Makoto

Dean,

Graduate School of Information Science and Electrical Engineering

Kyushu University
